Everything that matters!

THE ENTRY-LEVEL VANTOURER

VANTOURER
600 Ds

A true VANTourer ...
**without compromising
on quality!**

Not everyone needs all the options. But no one wants to compromise on quality. That's why the VANTourer 600 Ds focuses on the essentials: the proven and popular 600 D layout with a double bed in the rear, high-quality workmanship and the VANTourer storage space concept – reduced to fixed equipment. This reduces complexity, but above all, it saves money.

Everything that matters! Reduced to the essentials, uncompromising in quality: classic furniture construction, modern upholstery and workmanship at the high standard you expect from VANTourer.

Clear. Practical. Proven. The tried-and-tested 600 D layout impresses with a large double bed in the rear, a functional kitchen, side bathroom, fixed bench seat with adjustable table and well-designed storage solutions.

Everything on board. The functional kitchen offers exactly what matters when you're on the move – short distances, practical storage and efficient use of space. The refrigerator at the front can be opened up to 180°.

Compact and integrated, impressive in everyday use. The functional side bathroom offers everything you need when travelling – efficient to use and easily accessible. Clearly structured, without any unnecessary frills.

Maximum practicality. The transverse double bed in the rear offers sleeping comfort and generous storage space underneath. Thanks to the fold-up bed surface, the space can be used flexibly – ideal for storing luggage or bicycles.

*For whom is the 600 Ds
most suitable?*

**For anyone who loves great value for money –
without compromising on quality and functionality.**
