

The entry-level VANTourer at the Caravan Salon

## **VANTourer 600 Ds: Focused on what matters**

**The VANTourer 600 Ds combines practical standard equipment with the key characteristics of the VANTourer range. The result is an entry-level model for anyone looking to start their campervan journey with everything they need and nothing they don't. Visitors can experience the 600 Ds first-hand at the Caravan Salon in Düsseldorf.**

**Koblenz, Germany.** "With the VANTourer 600 Ds, we have developed a model that focuses on straightforward, uncomplicated travel – without losing the classic VANTourer character," explains Steffen Gross, Managing Director of EuroCaravaning. Based on the layout of the VANTourer 600 D, all core features are included as standard, while the equipment has been deliberately streamlined to the essentials. The campervan shows that a well-chosen range of features can be all you need for a comfortable journey.

### **Practical solutions for everyday life and adventure**

The new model combines the well-established strengths of the VANTourer range and, at 5.99 metres in length, is equally suited for both everyday life and adventure. The 4-zone kitchen combines an energy-efficient compressor fridge, a two-burner gas hob with a sink, flexible work surfaces and practical storage space. The transverse bed at the rear also makes flexible use of the available space: thanks to its fold-down slatted frame, additional storage space can be created quickly and easily whenever needed. "We've designed the model to be simple, practical and reliable – exactly what many travellers are looking for," says Gross. The VANTourer 600 Ds therefore focuses on straightforward solutions that make everyday travel as easy as possible.

### **Discover it now at the Caravan Salon**

And best of all: the VANTourer 600 Ds is available from €54,927 – for anyone who wants to embark on their campervan adventure with a straightforward and well-equipped entry into campervan travel. At the Caravan Salon in Düsseldorf, the model will be on display from 28 August to 6 September at **stand B01 in Hall 12**.
